

Brazos County Community COVID-19 Vaccination Hub

The Brazos Center, Bryan, Texas 77803

For Immediate Media Release

Bryan, Texas, March 5, 2021

Updates to the Vaccination Hub Appointment Process

The leadership team of the Brazos County Community Vaccination Hub has determined that, in order to create maximum transparency of the appointment process, it will move away from maintaining a waiting list for vaccinations. In lieu of an individual registering on a wait list...and then waiting for an indeterminate period of time for a response... individuals will now have direct access to the scheduling software.

The existing waiting list access closed last night, and all remaining people on the list, who were in either a 1A or 1B category, will be receiving emails today offering them an opportunity to sign up for an appointment next week.

Going forward all appointments will be directly scheduled through the newly established Vaccination Hub website, brazoshub.com. The site is live now with information about Hub operations, and available appointments will go live on Monday at 10:00 am. On subsequent weeks, the Hub website will post available appointments on Fridays at 10:00 am.

As has been the past practice, the numbers of appointments available each week will be dependent upon the allocation of vaccines to the Hub by the State of Texas.

Remember...our mission is **'getting a shot in everyone's arm who wants one'**.
