**Vaccine Appointments to Open to all Community at 5 p.m. Today**

As of Monday, March 22 at 12 p.m., the Brazos County Community Vaccination Hub still has a large number of appointments open for scheduling this week. More than 1,500 appointment slots are available. The Hub is encouraging individuals in the community who are 50 years or older and still interested in receiving the vaccine to visit [brazoshub.com](http://brazoshub.com) and schedule before 5 p.m. today.

At 5 p.m. today, the schedule will open for all community members 18 years and older interested in receiving the vaccine. The Hub continues to protect those at the greatest risk of hospitalization and death from COVID-19 in the Brazos Valley through their vaccination efforts. Recently the hub expanded vaccination criteria to people 50 plus years of age. This update aligned with the Department of State Health Services of Texas (DSHS) announcement on March 10.

As a reminder, all appointments are directly scheduled through the Vaccination Hub website, [brazoshub.com](http://brazoshub.com). The Hub website posts available appointments each Friday at 10:00 am. As has been the past practice, the numbers of appointments available each week will be dependent upon the allocation of vaccines to the Hub by the State of Texas.

Remember...our mission is **'getting a shot in everyone's arm who wants one'**.
